E. H. Johns of Prescott, Ont., arrived here last week and has taken up his position as accountant at the Traders Bank.

Elias Sick has a new vacuum cleaning outfit which enables him to do work cheaper and more satisfactorily than ever. Phone 77.

For Sale—Well improved quarter section, 3-1-2 miles E. of Didsbury. Would trade for property in Olds or Didsbury. P. P. Johnson, Didsbury.

Cosgrove and Lang will present the Juvenile Bostonians in "The Rose of Blandeen" at the Didsbury Opera House on Thursday, Oct. 20.

Found—A gentleman's silver watch at the Fair grounds on Oct. 7th. Owner can have same by proving property at C. Hiebert's Hardware store and paying for this advertisement.

Special Thanksgiving Services will be held on the Sunday before Thanksgiving Day in the English Church when the collection will be devoted to clearing off the Church debt.

In our report of the death of Mrs. Dr. Gaddes last week, a typographical error was made in stating that Mr. and Mrs. Gaddes were married in 1907. This should have read "1897."

Notice—Will the person who found the pen and ink drawings and pencil sketches consisting of a school, two cows, dog, chair, dwelling house and pineapple, please return same to Pioneer Office.

For Thanksgiving Day, Oct. 31st, 1910, the Canadian Pacific Railway Company are authorizing a rate of fare and one third for the round trip. Tickets will be on sale Oct. 28th to 31st inclusive, final return limit Nov. 2, 1910.

A meeting of all persons interested in the re-organization of the Didsbury Silver Band will be held at the Fire Hall on Monday evening October 24th at 8 o'clock. It is hoped that those who can play any instrument or who will take an active interest in the Band will turn out and help the re-organization.

Another bad freight wreck occurred on the C. P. R. about 3 miles south of Didsbury on Wednesday afternoon last. No one was hurt but there were ten cars of lumber, sand, etc. piled up on the tracks and the rails were torn up for about 200 yards. The afternoon passenger trains were delayed considerably through the wreck.

We would like to draw your attention to the Grand Concert and Supper given in the Opera House on Thanksgiving night under the auspices of the choir and Ladies Aid of the Didsbury Methodist Church. This promise to be a great treat for the people of Didsbury. There will be a full announcement in the paper next week.

For heavy footwear see Reitzel & Kalbfleisch.

E. Morrison has the foundations laid for his new home south of town.

Just received a large stock of ladies fancy collars, ties, belts, veiling and waists. Reitzel & Kalbfleisch.

The Range With A Perfect Oven

The oven of a Sask-Alta Steel Range roasts and bakes perfectly. It is so constructed that the distribution of heat is always even. The turkey or joints cook to a nut-brown turn on all sides. The pudding, bread and pies always come out of the Sask-Alta oven evenly baked. Another advantage is size. It takes the largest joint or the biggest turkey—and four ten inch pies can be set side by side. Added to all this, the

**Sask-Alta
Steel Range**

oven is properly ventilated so gas or fumes never affect food. The McClary thermometer always indicates accurately the proper degree of heat for any purpose. The nickel-steel lining can't bulge or warp—can't burn out; won't admit dust. Ask the nearest McClary agent to point out the many other points of merit found in the Sask-Alta alone. Write now for the Sask-Alta booklet. Address the nearest McClary branch.

The Passing of Autumn

Perhaps there is no season of the year which is so full of suggestive thought as the Autumn. First and foremost, the fruits of a year's labour are being garnered in, and man is using every effort to store up a reserve with which to face the rigours of Winter's reign.

In the realm of nature, how things have been metamorphosed! Instead of the fields of golden grain waiting to and fro but yesterday with every summer zephyr, are the fields of stubble across which the winds of Autumn blow, moaning as it were with the anguish of the human, because that which was, is not.

The flowers which once lent their beauty and fragrance to the prairie have passed into the land of the forgotten. Even the trees and shrubs are bereft, and their leaves of many tints and hues lie crumbled in decay.

And yet with it all, how glorious a passing! Can we imagine a much grander picture than that of an Autumn sunset? The whole western sky aflame with gorgeous colourings, as though they had burst thro' the flood gates of Eternal beauty.

It is at the shrine of nature that we drink in life's deepest and truest philosophy. If Spring teaches its lesson on "the joy of living," then Autumn teaches us on "the joy of sacrifice," for "from the death of the old the new proceeds." This idea of life evolving from death explains the "law of continuity." The laws that govern the natural world have their corresponding parallels in the human world.

Life has its Spring, Summer, Autumn and Winter seasons. It is good for us to pause occasionally, and reflect on the transiency of our earthly pilgrimage. By so doing, we shall (if wise) besides laying up for ourselves corruptible treasures, lay up the greater incorruptible which earth cannot give nor yet take away.

This life shall indeed be beautiful in its passing, and the world be the better for our having lived in it. This is the message that Autumn eloquently gives to mankind in letters of burnished gold.

Biliousness is due to a disordered condition of the stomach. Chamberlain's Tablets are essentially a stomach medicine, intended especially to act on that organ; to cleanse it, strengthen it, tone and invigorate it, to regulate the liver and to banish biliousness positively and effectually. The Fashion Show for Men means much in the display of Semi-ready Tailoring. We avoid the flashy and the gaudy, and show artistic and expert craftsmanship combined with the most harmonious and gentlemanly designs.

By "good clothes" we mean Semi-ready Clothes, which reflects all that is most desirable in value, style and economy.

You might get as good cloth for \$15 in a suit, but you cannot get the style and workmanship. And the labour in the suit costs and counts more than the mere cloth.

INDIANS ARE THRIVING

AN IMPROVEMENT IN CONDITION OF THE RED MAN

Annual Report of the Department of Indian Affairs for the Year ending March 31 last is out. It is the most satisfactory yet issued by the department, showing a mild winter and the development of settlement in the west have made things much better for the aborigines. The only province which shows any moral decline, says the report, is British Columbia, but this is due to the fact that it is the last of the Canadian west to feel the effects of white "civilization" in the districts in which Indians are chiefly located.

The entrance of railways with its accompanying influx of settlers into what the tribes have from time immemorial regarded as their hunting grounds and fishing stations, has created more especially on the northern west coast and in the Nuuks and Skeena river districts, a feeling of unrest, which has been fanned into strength by outside agitators actuated by motives somewhat difficult of comprehension.

The Indians claim that under the old proclamation and in other ways their rights to the land were rendered by them are recognized and assured, which reduces the issue to one between them and the federal government. The whole matter is being done into by the department of justice and the Indian Affairs department. The whole matter is being done into by the department of justice and the Indian Affairs department.

The report of the department of Indian Affairs shows that there are now in the Indian reserves of the country 110,000 Indians, as compared with 111,000 during the previous year, a net decrease of 446. There were 2,400 Indian births and 2,100 deaths, leaving a net increase of 300 in the aboriginal population. While the reports from the various reserves still continue to tell of the ravages of alcohol among the Indians, it is also pointed out that the evil effects are less than they were and the prospects of the red man are correspondingly bright.

STORM ON BRITISH COAST

Coasts Lined with Wreckage—Already 150 Persons Reported to Have Perished

London.—The Irish and English coasts are lined with wreckage and grave fears are felt that the hurricane, which is hourly increasing in violence, will claim the largest number of human victims. Already 150 persons are reported to have perished.

Many big vessels have been foundered or broken to pieces, as, for example, numerous fishing smacks are missing, and are believed to have sunk. Corpses are being washed ashore at numerous places. Sixteen passengers and sailors are known to have perished in the foundering of the *St. John's Head*, which went down in the North Sea, while twenty are believed to have died on the *St. John's Head*, which went down in the North Sea, while twenty are believed to have died on the *St. John's Head*.

HAS EXCELLENT SANITARY LAWS

Easterners Surprised At Up-to-Date Ordinances in Western Province.

Ottawa, Ont.—At the Dominion Public Health Conference, an American delegation was delivered by Dr. M. M. Seymour, commissioner of public health for Saskatchewan, a report on the public health laws of that province, which are recognized as constituting most progressive legislation on sewage disposal and other matters in the Dominion.

The effect of the Saskatchewan law is that no municipality can issue debentures or the construction of water or sewerage systems until that system has received the approval of the public health commissioners, nor can a vote be taken by the ratepayers respecting the construction of such works until the commissioner's approval has been obtained.

From Lakes to Edmonton

Fort William, Ont.—The Grand Trunk Pacific line, which has been between here and Edmonton, a distance of twelve hundred miles, was completed recently. A. J. Macdonald, general manager of telegraphs, said twenty new stations with operators will be opened shortly between Winnipeg and Fort William.

£34,500 for Canadian Missions

London.—According to the Society for the Propagation of the Gospel, £34,500 has been received in response to the appeal of church work in western Canada.

ALBERTA CATTLE TRADE GOOD

The Shipments This Year Greater by 20,000 Than Those of 1909

Calgary.—"Since January 1st, up to the present time, there has been over 20,000 more head of live stock shipped out of Alberta than was the case during the same period last year," says Mr. H. C. McMullen, general live stock agent for the C. P. R.

"Though there was a decrease in the shipment for export in 1909, and though there will be a decrease this year compared with a few years ago, still the shipments from here to points on the Pacific coast and to Winnipeg, Toronto and Montreal will more than offset the decrease in the export trade. The reason why the export trade has fallen off during the last year or so, is because the home consumption has rapidly increased, namely the east and eastern points. Also the demand for butchers and feeding meats and live stock generally has increased to such an extent for late years that it is not for the largely increased live stock raised in Alberta, it could be exceedingly hard to make shipments to outside points."

"The shipment of live stock is the only shipment of live stock from Alberta to outside points that is on the decline. This is owing to the increased demand for pork and hams in the home province. The horses, cattle and sheep markets are quite in sympathy with one another, though the provincial demand for horses has increased of late years more than either sheep or cattle."

NEW CHIEF JUSTICE OF ALBERTA

Hon. Horace Harvey, Succeeds Hon. A. L. Sifton, Who Vacated the Position

Ottawa, Ont.—Hon. Horace Harvey, judge of the supreme court of Alberta, has been appointed Chief Justice of the province, succeeding Hon. A. L. Sifton, who left that post to become premier of the province.

Mr. Harvey has been a member of the high court since the organization of the province, previously being a judge of the supreme court of the Northwest Territories.

Previous to taking a position upon the bench, he was deputy attorney general of the province. Next to Mr. Justice Sifton he is senior judge of the supreme court.

Mr. C. C. Simmons, of Lethbridge, has been appointed a member of the supreme court, succeeding the vacancy on the bench made by the resignation of Premier Sifton.

Mr. Simmons has been a member of the bar in the west for many years. He started practice in Cardston and then moved to Lethbridge. He was elected to the legislature in 1904, and succeeded Senator B. Vohor, when that gentleman resigned from the legislature, to contest the riding of Medicine Hat in the Dominion, but was defeated.

ROOSEVELT STARTS CAMPAIGN

"Wall Street and Tammany Hall" the Text of His New York Address

Elmira, N. Y.—With one broadside Tammany and another for Wall Street, Theodore Roosevelt, upon his campaign for the Republican state ticket, the text of his speech at "Wall Street and Tammany Hall" have struck home.

His slogan was: "You are wanted in room 212. Are you going?"

Room 212 in a Rochester hotel, was occupied by Charles F. Murphy, leader of Tammany Hall. During the Democratic State convention, Theodore Roosevelt had only one theme for his speech. It was that he termed the alliance between Wall Street and Tammany Hall, which he said was the most corrupt alliance between corrupt business and corrupt political bosses, which the state had had since the days of Tammany. The Democrats should win the election he said Tammany and Wall Street would dominate the state to the detriment of the people.

Ottawa.—The Winnipeg delegation, which arrived in Ottawa recently, asked Sir Wilfrid Laurier and his colleagues for a grant of \$250,000 for the S. K. K. Centennial Exposition in 1914. Mayor Evans presented a memorial to the committee fully signed by Sir Wilfrid Laurier and Mr. Fisher.

Sir Wilfrid said that he had not had an opportunity to give the matter any further consideration since July.

The proposal was discussed in Winnipeg. Hon. W. F. Fielding and promoters were entitled to an early reply, and that matter would be taken up by Cabinet without delay. To Sir Wilfrid agreed.

Thanksgiving Day Occasions

For Thanksgiving Day, Oct. 31, 1910, the Canadian Pacific Railway Company are authorizing a rate of a fare and one third for the round trip. Tickets will be on sale Oct. 28 to 31 inclusive, final return limit, November 2, 1910.

Laborers to Work on C.P.R.

Belleville, Ont.—A number of workers have been working on the Grand Trunk shops here are leaving for the West, where they will engage in construction work on the Canadian Pacific railway.

IRON ORE IN ALBERTA

A VERY IMPORTANT INDUSTRY IS PROMISED

Recent Tests Made by a Well Known Mining Engineer of Iron Ore Disclosed Within One Hundred Miles of Calgary Are Highly Satisfactory—Ore Grades 45 per Cent. Iron—Company Will Establish Steel Plant.

Calgary.—The possibility that Calgary may yet become one of the world's greatest steel and iron manufacturing centres, was demonstrated to President Giesse, of the board of trade, and other representative officials, to members of the press, when A. E. Spieck, of Salt Lake City, mining expert of world-wide fame, conducted a series of laboratory tests on ore said to have been collected within 100 miles of Calgary, in local surroundings to permit its development commercially, and pronounced the ore to be 45 per cent. and 42 per cent. iron, on two tests. The chemist stated that previous tests he had succeeded in getting the iron ore to average between 45 and 50 per cent. pure.

The mineral ore on which the tests were made was declared by Dr. Inge, at whose place the tests were made, to be of the best quality taken at random from various places in an area of 20,000 acres, comprising iron deposits he had succeeded in getting the iron ore to average between 45 and 50 per cent. pure.

Further, the ore, he declared, was but surface ore, which is generally poorer than the almost unbroken and within easy access and surrounded by mountains of limestone and coal, both very abundant in the district.

VETERINARY ACCUSED OF GRAFT

Prince Albert Man Charged With Defrauding Government of Large Sums

Regina, Sask.—J. J. Monford, reported to be a doctor and a veterinarian, has been charged with defrauding the Dominion government of large sums of money.

According to F. Frame, who conducted the prosecution for the department of agriculture at Ottawa, Monford, who is reported to be a veterinarian, has been charged with defrauding the Dominion government of large sums of money.

THE WESTERN YIELD

President of the Ogilvie's Milling Co. Believes the Usual Estimates Are Much Too Low

Calgary.—R. R. Homer, president of the Ogilvie Milling Company, is in the city recently. He is travelling with Sir Thomas Shaughnessy, president of the C. P. R.

Mr. Homer said that despite what the usual estimates of the Western crop yield of about 100,000,000 bushels of grain. The higher estimate was very good, but a large percentage was affected by weather conditions.

The grain milling industry is now one of the biggest in the world. The capacity of the country's mills is 15,000,000 bushels of flour every day.

The country has not built new elevators this year, but has purchased a number of elevators in the West to keep pace with the growing conditions.

Thunderer Voices Its Opinion

London.—The Times says that any opinion in Canada that may be represented in the House of Commons is but merely an effort to resist existing systems in some small detail or to bring about a change in the class or section of British free traders who have been led.

MAY LOSE POWER RIGHTS

Some Person Got in First on the Big Water Power and City Must Make a Fight

Edmonton, Alta.—It appears that the city of Edmonton will not be permitted to acquire the right to harness the Big Horn river in the Athabasca river without a fight.

The city's representative, John S. Fielding, who has sent out a short time ago, to investigate the power possibilities, finds that he has been frustrated. According to a letter sent to the city commissioners, when he got to the rapids he found this notice nailed to a stake, stating him the fact: "Post number one, being the first survey for the purpose of obtaining water rights in the Athabasca river, at Grand Rapids, taking in and including all necessary lands and water passing thereover. Dated Sept. 19, 1910." Signed by A. Violette, per M. W. Harris, witness, F. Violette.

Inquiries made revealed the fact that A. Violette is apparently representing a large amount of American capital. It is understood that he also has announced their intention of installing a dam at Grand Rapids, and rushing away into the north, leaving the city to the site of the proposed power plant.

It is stated that one of the four men is a millionaire and that they have been thinking of the power possibilities in the Athabasca river for some time. Although the city received a telegram from the Department of the Interior in August acknowledging receipt of official application, Violette has received one recently, stating that no application had yet been filed.

TELEGRAPH AT PEACE RIVER

The Far-Distant District Now Has Rapid Communication Across

Peace River, Crossing, Alta.—The telegraph line reached this point on October 6. Quite a gathering of the citizens were held at the place in the evening where the office was cut in and much friendly rivalry existed in the contest to be the first to receive a message. Every one without exception expressed themselves as being highly delighted with the completion of the line. The evening dreams of the past as regards rapid communication with the outside world, the first long extended sixteen miles further to the Shirtsby settlement, from which point the line will be extended to the Peace River, and the line will be extended to the Peace River, and the line will be extended to the Peace River.

A steady stream of immigration coming to this place, has caused the settlers bound for Grand Prairie and Peace River, to be disappointed. The latter group around the district and the Upper country will be disappointed in not receiving settlers. Mr. S. A. Brick, of Shirtsby settlement, has just finished the district and has a yield of 1,000 bushels of No. 1 wheat and 1,500 bushels of oats and other farmers of the district are equally favorable. One of these recent settlers of Grand Prairie has threshed 1,500 bushels of No. 1 wheat and 1,500 bushels of oats at present of 1.50 per bushel means a nice sum for the first year.

BLACK HAND SECRET

Discover Nature of the Acid and Secret May Be Revealed

Ottawa.—Dr. Macpherson, provincial health officer at Vancouver, performed a strange mission when in the course of his duties he discovered the Black Hand Conference. He learned to Mr. McGill, chief analyst of the health department, that a man who had been killed near Revelstoke by some acid which it has been ascertained was the property of the Black Hand. The body was found in a swamp, partially decomposed, but the face bore marks which indicated that the victim was first blinded and then tortured. It is believed that if the character of the acid can be ascertained some trace may be had of the murderers.

NOT MUCH BUSINESS

Reports of Forestry and Insurance Committees Will Be the Chief Business

Victoria, B. C.—The British Columbia legislature meets January 11. The chief matters to be dealt with are the modification of statistics and reports of the forestry and insurance committees. It is not expected that any measures of railway assistance will be proposed. The most important piece of bill will be the petition of D. D. Mann, for a charter to extend the Portland Canal ship to the outside boundary of the province. This line is the property of D. D. Mann personally and Wm. McKenzie has no interest in it.

Discover Highest Point in Rockies

Winnipeg.—A. J. Duggan, a government engineer who has been at work on the Alaskan boundary survey, reported the discovery, north of latitude 60, that the highest point of the highest mountain on the continent, exceeding Mount McKinley by nearly 2,000 feet.

Discussing the Standards

Winnipeg.—The grain standard board, which has been at work for some time, to determine the standards of inspection for this year's crop, held its first session on account of the uniform excellence of all grains.

C. HIEBERT & CO.

LUMBER

We are now at it---building our sheds and getting our first shipment of lumber, shingles, lath, sash and doors, and we are now prepared to furnish the public first-class goods in the above lines.

HARDWARE

In hardware we are carrying everything pertaining to the building of a house or the furnishing of a first-class kitchen arrangement.

OIL

We would draw your attention to our coal oil line which we are handling, The "National Light," without a doubt the best coal oil on the market---bar none. Give it a trial and you will use no other than the "National Light."

COAL

In heating and stove coal we handle the Great West coal, which is known to give less smoke and more heat than any other soft coal on the market.

TO GASOLINE USERS

We handle the famous "WHITE ROSE" GASOLINE. This GASOLINE is being used by every aviator, in fact by the one that made the highest record flight on the American continent. He used "WHITE ROSE" GASOLINE. The price may be a little higher than ordinary gasoline, but it is purer, and you get great deal better satisfaction and more power.

Council Meeting

The Council met on Monday night, but outside of passing a few accounts there was very little business to be done and the Council had the privilege of retiring early.

Mayor Atkins, Couns. Osmond, St. Clair, Moyer, Good and Secretary Reed were present.

The following accounts having been passed by chairmen of committees were also passed by the Council.

Golden West Hotel, board bill, well diggers, \$25.25; Alexandra livery, boarding teams, \$12.50; C. L. Peterson, gravel, \$12.25; A. Good, lumber, \$71.16; Didsbury Cartage Co., \$2.75; Didsbury Pioneer, printing, \$18.25; J. A. Inlay, \$3.00; Bowman-Sine Lumber Co., lumber, \$88.80.

The constable will be employed for a few days in completing the collection of the poll and dog taxes, inspecting lanes and the sanitary condition of back yards and seeing that everybody is complying with the by-law regarding the ash can.

The Council then adjourned.

Legislative Items

The Alberta Legislature will meet at Edmonton on November 10th instead of the 3rd as stated some time ago. The ceremony of swearing in Lieut. Gov. Huleya for a second term, will take place at Edmonton on Thursday.

One of the first acts of the government on their re-assembling will be to take up the report of the commission on the affairs of the A. & G. W. deal.

Lame back is one of the most common forms of muscular rheumatism. A few applications of Chamberlain's Liniment will give relief. For sale by dealers everywhere.

Do You Realize the Advantages of Concrete?

THE rising price of lumber has compelled the farmer to look for a suitable substitute.

Concrete, because of its cheapness, durability and the readiness with which it can be used for every farm purpose, has proven itself to be cheaper than lumber and far more durable. Our Free Book—

"What the Farmer Can Do With Concrete"

shows the farmer how he can do his own work without the aid of skilled mechanics. It demonstrates the economy of Concrete construction as compared with lumber, brick or stone.

This Book Tells How Concrete Aids Farmers.

It shows how Concrete can be used to advantage on the farm in the construction of almost every practical utility.

Send for this book to-day. You'll find it intensely interesting, even if you don't intend to build for a while. It contains much useful information that will put you in the way of saving money. Among the subjects treated are: Barns, Dairies, Fence Posts, Feeding Piles, Hitching Posts, Root Cellars, Alcos, Stables, Sinks, Stalls, Troughs, Walks, Well Curbs, and so forth.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

WAS UP AGAINST A HARD COMBINATION

BUT DODD'S KIDNEY PILLS VANQUISHED THEM ALL.

Sundridge man suffering from Gravel, Diabetes and Dropsy finds an easy and complete cure.

Sundridge, Ont. (Special).—Gravel, Diabetes and Dropsy are a terrible combination for one man to have. It means that his life is in the gravest danger, unless like George Vanhoose, a well-known resident of this place, he finds the simple and natural cure. Here is the story Mr. Vanhoose tells, and all the neighbors know every word of it.

"I had pains in my back and across my stomach would swell. It was so bad that I was unable to get up. I was in bed for a week. I was suffering from the terrible Gravel. The doctor attended me, but I kept getting worse every day."

"Others had told me of the great good Dodd's Kidney Pills had done them and I determined to try them. Six boxes made a new man of me. Gravel, Dropsy and Diabetes are all other Kidney Diseases or are caused by diseased Kidneys. The easy and natural way to cure them is to use Dodd's Kidney Pills. They never fail to cure any form of Kidney Disease."

Trial is Inexpensive.—To those who suffer from dyspepsia, indigestion, rheumatism or any ailment arising from derangement of the digestive system, a trial of Parmenter's Vegetable Pills is recommended, should the sufferer be unacquainted with them. The trial will be inexpensive and the result will be another customer for this excellent medicine. So effective is their action that many cures can certainly be traced to their use where other pills have proved ineffective.

The Bereaved Widow—"That's so, especially if the lost thing is insured."

The Gods Would Help

An amusing incident occurred at a theatre one night when Mary Anderson was appearing as Galatea. In this character Miss Anderson had to turn with outstretched arms towards the audience with the words:
"The gods will help me."
"On this particular occasion the audience was so carried away with her acting that with one accord the 'gods' of the gallery roared out the hearty response: 'We will!'"

WHEN HEALTH IS RUN DOWN

A Tonic Such as Dr. Williams' Pink Pills is Promptly Needed.

When the health is run down from any cause whatever, a tonic is needed. A feeling of weakness, poor appetite, loss of breath after slight exertion, indicates that a little break-down is near. Sometimes these troubles are due to overwork or worry, or again they may be due to the after-effects of fever or some wasting illness. But whatever the cause the trouble will not be corrected, and for the purpose of gaining new health and new strength there is absolutely no better medicine than Dr. Williams' Pink Pills, which fill the veins with new, rich blood, which tones and strengthens every nerve and every organ in the body.

Mrs. Rose A. Smith, Roblin, Man., says: "Some years ago I had a severe attack of typhoid fever. When I recovered sufficiently to be able to get about I found that I was not able to gather up my strength. I tried tonic wines and other medicines, but without success. For months I could hardly go up stairs, and if I took a walk I was always obliged to take a friend with me to help me home again. A doctor had again been called in, but he said I would grow out of it in time. I was given more medicine, but instead of gaining weight I kept getting weaker, and was at last obliged to take up my bed. One day while lying reading I chanced to come across a cure made by Dr. Williams' Pink Pills, and this decided me to try them. Before I had taken the pills long I began to feel a decided improvement, and my friends also said I was beginning to look like my old self again. From that time on the improvement was steady. But I continued to take the pills for a couple months, when I felt that the cure was complete. Several years have passed since then and as I have remained in the best of health I am warranted in saying that the cure is permanent, and I freely give this statement for the benefit it may bring to others."

Dr. Williams' Pink Pills are sold by all medicine dealers or may be had by mail at 50 cents a box or six boxes for \$2.50. The Dr. Williams' Medicine Co., Brockville, Ont.
This is an extract from a Chinese paper that has an English column for foreign readers:
"Soothing Outrage.—O Fearful Gossip—Kheon Tung was a man of high rank and on his return accidentally shot at by some miscreant soldiers. Unlucky death, oh fearful! All men expressed their mourn. The cowardice dogs is still at large."

Vicar's Daughter—"I suppose the rain kept you from the funeral last Tuesday, Mrs. Blag?"
Mrs. Blag—"Well, partly, m's; but, to speak true, with the rheumatism and agn away with the 'an and the cokes afterwards, funerals ain't the jaunts they used to be for me!"

HARDINGE AS SPORTSMAN.

New Viceroy of India is Keenly Interested in Polo.

Sir Charles Hardinge, the new viceroy of India, has taken the name of Lord Penhurst on his elevation to the peerage, from his country place at Penhurst near Tonbridge, in Kent. Much has been written of Sir Charles' cleverness as a diplomat, of his absolute freedom from political partisanship, which is a matter of such importance in a permanent servant of the state, of his broad statesmanship and of his exceptional knowledge of court etiquette and ceremonial. But nowhere have I seen any mention made of his qualities as a sportsman. says a recent writer in a London paper. Yet sportsmanship is important in India, where no one can hope to achieve success in any high office who is not a sportsman. Charles Hardinge, or rather, as I should call him now, Lord Penhurst, is a particularly adept and enthusiastic polo player, extremely fond of hunting, an excellent shot, and, of course, a skillful player of tennis and in the royal game of golf. A statesman who can lead in all these sports acquires a far greater prestige and influence among the semi-independent princes, a petty native rulers of India than the administrator who is content to endeavor to rule from his desk. In fact, the most successful Viceroy and governors of India have always been those who excelled in sports.

Lord Penhurst has appointed as his private secretary J. Houseman, an Englishman, son of the well-known head master of Winchester College and one of the many brilliant men who have distinguished themselves in the Indian service. He was private secretary to two successive viceroys of Bombay—namely, Lord Northbrook and Lord Dufferin, spending seven years in that capacity, and greatly distinguished himself by his pluck and administrative ability as a special commissioner of the Government during the plague, receiving his honors as such the Order of the Indian Empire. Before becoming private secretary to Lord Northbrook he held for several years a magistracy in India, and his knowledge, therefore, of the Anglo-Indian administration of India and of native life in that great dependency is quite exceptional.

The private secretary to the Viceroy is one of the most important factors in the administration of England's great oriental empire. In fact, so great is his influence and power that he has often been described as the Deputy Viceroy. Every document, every law, every order, and every dignitary, reaches the Viceroy through him, and he is also the commandant of the Viceroy's household, and in his hands are the Viceroy's commands, views and wishes. He is in every sense of the word the right hand of the Viceroy, a far more important personage, indeed, than the latter's Cabinet Ministers. It depends largely on his judgment and his tact whether the viceregal office of his chief is a success or a failure, and the secret that Lord Penhurst has chosen so admirably capable a man as Du Bouay for the post has created a most favorable impression throughout India, in English as well as in native circles.

Nearly all the private secretaries of Viceroys have been men of distinction, and among the names that stand out in the most prominent memory are Lord Northbrook's private secretary, Sir Evelyn Baring, who afterwards ruled Egypt, for nearly a quarter of a century; Lord Cromer, Sir Ronald Mackenzie Wallace, who was private secretary to Lord Dufferin, and Sir Walter Lawrence, who was private secretary to Lord Curzon, and has received a baronetcy, as well as a number of orders of knighthood, for his services.

A Record.

It is rather remarkable that the present British Government should contain no fewer than three Jews among its members, Sir Rufus Isaacs, the Solicitor-General, being the first. This must be something in the way of a record. Of course, Lord Beaconsfield will always remain the most famous Jew numbered among the governors of Great Britain, but Lord Beaconsfield did not retain the Jewish faith, and since his death there has been no conspicuous Jewish Minister until the present time.

It is interesting that the Permanent Secretary of the Postoffice now presided over by Herbert Samuel, is a fellow Jew—Sir Matthew Nathan. Lord Selkirk is one of the four Jewish members of the House of Lords, the others being Lord Macmillan, Rothschild, and Mr. Montagu. There are also four Jewish Privy Counsellors—Lord Rothschild, Mr. Samuel, Sir Edgar Speyer, and Mr. Arthur Cohen, &c.

Tribute to Late King.

A strange individual tribute to the late King was paid by a veteran splitter, working alone in the forest at Changi, N. B. On the day of his Majesty's funeral W. H. Lully, crown lands bailiff, was walking through the dense forest just about 2 o'clock. Everything was still save the regular stroke of an axe. Suddenly the strokes ceased, and as they were not resumed in a minute or so he looked through the vista of trees and there saw the splinter standing stock-still, like a soldier on parade, with his hat off. The man remained in that position for five minutes. This was the strange tribute paid to the dead King. He had read somewhere that at two o'clock there would be a cessation of work for a minute or two throughout the Empire.
